

Tower of Light Press Release

06.21.2019

Impact Lighting continues to light up downtown Orlando with the latest in LED technology.

The Tower of Light Sculpture by artist Ed Carpenter (400 South Orange Avenue Orlando Florida) stands 60 feet tall in front of Orlando City Hall.

Its steel frame nests 102 glass panels fanning up to the sky. This abstract sculpture was designed to catch sunlight, but moreover really show its true design at night while illuminated.

In the past traditional white light was cast throughout. Now, color changing smart LEDs have transformed this piece of art into something striking .

Following suit to The Bank of America building at 390 N Orange Ave, Orlando, FL 32801. The tower of light will change colors on special occasions, sporting events and holidays.
